

# boosting self-esteem

After creating thousands of beautiful smiles in his 30 years of private practice, Dr. Jan L. Ziegler is still driven by the immediate surge in self-esteem, confidence and excitement that his patients experience after just one visit. “When they see their new smile for the first time, their expression is priceless and speaks volumes,” he says.

Dr. Ziegler’s face lights up when he shares his patients’ success stories. “One patient, a 6’4”, 250-pound building contractor from North Carolina, flew in to see me for treatment. He could afford to wear the finest clothing and jewelry, but was very self-conscious, always covering his mouth with his hand because he was embarrassed to smile. I’ll never forget the look on his face when he looked in the mirror after the work was done. His eyes welled with tears as he said, ‘I can’t believe this is me, I’m a new man.’”

Patients come to Dr. Ziegler’s Miami Center for Cosmetic and Implant Dentistry from near and far and for everything from minor procedures to extreme dental makeovers. “I sit down with every new patient and listen. I let them tell me what their goals are for their mouth. Most want a beautiful smile—and a healthy mouth.” Dr. Ziegler and his expert team of dentists then get right to work. He performs a thorough exam and many patients begin their individualized treatment during the very first visit. In addition, Dr. Ziegler tries to minimize the number of visits required for any procedure. “We strive to get the treatment completed as quickly and comfortably as possible, while achieving a healthy mouth and the best and finest in aesthetic results.” The large number of patient referrals is evidence that this goal has been attained. 305-38-SMILE (305-387-6453) or [newbeauty.com/ziegler](http://newbeauty.com/ziegler).

## DENTAL COSMETIC CREATIONS

Many of the women and men entering Dr. Ziegler’s office request **SMILE MAKEOVERS**. “When I look at a person, I can immediately visualize what his or her mouth will look like after treatment. I guess it’s because I have been doing this for over 30 years. And I’d have to say, I’m a perfectionist—I am more difficult to please than my patients.” Your smile can be transformed after just one visit using **COSMETIC TEMPORARIES**, which remain on the teeth over the course of treatment. His patients go about their daily lives looking and feeling great even before they achieve the end result. “When you look at the before-and-after photos of my patients, it’s as if they had **FACIAL REJUVENATION**. So many of them say, ‘Why did I wait so long?’ Dramatically changing peoples lives is so rewarding,” Dr. Ziegler says—**WITH A SMILE**.
